About

Day at leisure to explore the archipelago

START

11:00 AM

Fri Jul 07, 2023

FINISH

BOOKING DETAILS

Explore the archipelago, sailing and boat adventures, kayaking, fishing, seal excursions, swimming and fantastic hiking trails. If shopping is your vice, Marstrand is filled with wonderful shops and boutiques, many very unique to the Island. Looming over the town is Carlstens Fästning, a fortress constructed in the 1660s after the Swedish takeover of Bohuslän; later building work was completed by convicts sentenced to hard labour. There are smashing archipelago views from the top of its round tower; you can also explore the secret tunnel and in the prison cells learn the story of Lasse Maja, a cross-dressing thief

WHAT TO SEE AND EXPERIENCE IN TROLLHÄTTAN

The Mighty Waterfalls and Locks

The Trollhättan Waterfalls and lock area offers exciting experiences for both young and old alike. During the summer months you can see when, during specific times, the gates open and the mighty Waterfalls roar once again. Today, the water in Göta Älv is used for two hydropower plants in Trollhättan and the oldest, Olidan's hydroelectric station, can be visited during the summer. Near the waterfalls you will also find the King's Cave, Trollhättan's own guestbook for royal visits to the area throughout the last centuries.

If you follow Göta Älv in a southern direction, through Älvrummet (see below), you will reach the lock area in Trollhättan. Here, you have the opportunity to see three different lock systems surrounded by beautiful nature.

Älvrummet

Älvrummet is the nature area that connects the waterfalls area with the locks in Trollhättan. The area offers numerous hiking trails, such as Kärleksstigen (the Trail of Love) which takes you along the waters of Göta Älv, south towards the locks or north towards the waterfalls. If you are in Älvrummet we recommend you to

visit Kopparklinten, from which you will have spectacular views of Trollhättan and Göta Älv.

Innovatum District

East of the waterfalls- and lock area is the so-called Innovatum District located. Here, industrial buildings from the height of NOHAB are still in place, but today the premises have been filled with new and exciting companies and places of interest. Here the kids can enjoy some fun at the Innovatum Science Center and if you are interested in the history and cars of Saab, the Saab Car Museum is a must. In this area there is also a preserved smithy from the NOHAB era, and the Trollhättan Art Gallery is also located in this area.

Trollywood

For many people Trollhättan is also known as Trollywood thanks to Film i Väst which has its film studio here. Several major Swedish and Nordic movies have had scenes filmed in Trollhättan and Vänersborg, so when you walk on the streets of our cities you may recognize a site or two.

DAY TRIPS CLOSE TO TROLLHÄTTAN

Vänersborg

Only about a 15 minutes' drive from Trollhättan, on the western tip of Lake Vänern, is Vänersborg located. There are exciting tourist destinations such as the beautiful Skräckleparken on Lake Vänern; Sweden's oldest museum, the Vänersborg Museum, and much more to see and visit. If you want to leave your car in Trollhättan you can easily take the train or bus between the two cities.

Ecopark Halle- and Hunneberg

Discover the unique scenery of Halle- and Hunneberg - only about a 20 minutes' drive from Vänersborg. The twin mountains are excellent to discover on foot or by mountain bike. There are many trails to choose from. If you want to know more about nature, wildlife or history of the mountains, visit the Kungajakt Museum Älgens Berg, an experience center for all ages located on Hunneberg.
