- 2.5h Forest escape by dog sled - Shared Tour
  - Enjoy a ride through the sparkling winter landscape of Lapland by dog sled; the glitter of snowflakes is all around and the cold air is filled with the warm breath of our huskies as they run along an exciting forest trail away from crowds and other tourist kennels. Half-way, you'll stop at the lávvu, a traditional Sami style tipi, where you will warm yourself around a roaring fire with a steaming mug of hot chocolate or coffee in your hands and homemade apple cake. The scenery that surrounds you is beautiful, and you may even see reindeer or moose on your adventure. This is the perfect tour for families, couples and individuals where you can sit on a sled driven by a professional guide and you can just relax and enjoy time in nature with our friendly huskies. The kennels are just 10 minutes outside of Kiruna and yet it feels like a fairytale world far away from crowds. The dogs love it too and you'll notice how happy and excited they are to meet you. They love cuddles and there will be plenty of time for you to get to know them and some of our young puppies. Winter outer-clothing is provided. This is a tour where you sit on a big sled driven by one of the professional guides whose job it is to make sure you go home happy with your experience.
    - The sled is shared with two persons. Another driving and another as a passenger
- Overnight in Chalet Kiruna at Camp Ripan or similar
